

Tom Griffiths thought our lifeguard stations were the best, so he asked us to change them.

“Throughout my career I’ve been in awe of the way Paragon engineers and fabricates its products. If they make it, it’s the best there is. When I conceived what I believe is a superior lifeguard station I naturally went right to them.”

Tom Griffiths, ED.D.
Aquatics Director and Safety Officer for Athletics,
Penn State University

Introducing the revolutionary Griff’s Guard Station® by Paragon

Our new Griff’s Guard Station is a wonderful example of the kinds of things Paragon does to stay well on top of the commercial pool deck equipment industry. Evolved from Tom Griffiths’ *Five Minute Scanning Strategy*®, it was designed to significantly increase lifeguard effectiveness.

Dr. Griffiths is the leading researcher in lifeguard science in the United States. Since 1994, he has surveyed 10,000 working lifeguards, leading to the development of Griff’s Guard Station.

Advantages of Griff’s Guard Station

- Proven to decrease boredom while increasing attention and concentration, necessary for the safety of both swimmers and lifeguards.
- Allows quicker responses to emergencies.
- Promotes alertness without diverting attention from water.
- Increases patrolling and communication with guests.
- Encourages standing to add height to surveillance angle.

20387 Full Height Guard

**We’ve remained the leader for 46 years
because we don’t tread water.**

Griff's Guard Station is uniquely designed to accommodate *Griff's Five Minute Scanning Strategy*® by featuring a front entry, elevated viewing station, easy access and non-skid surface. A wide front step also provides an additional station and brings the guard closer to a pool's edge. The Station's shorter, wider dimensions encourage the "Sit, Stand, Stroll" philosophy that is at the heart of Griff's Strategy.

Heavy duty construction assures long lasting, trouble-free service.

Taking someone's great idea and turning it into a practical reality is one of the things that has kept Paragon the industry leader for 46 years. Diving stands, diving towers, competitive starting platforms, lifeguard chairs and more...if you see the name Paragon you're looking at the best you can buy.

20386 Step Model

20385 Flat Model

Tom Griffith's *Five Minute Scanning Strategy*® videocassette comes with a purchase of any Griff's Guard Station. Or order cassettes from Tom Griffiths at 1-814-234-0313 or on the web: www.aquaticsafetygroup.com.
